

## Everything under one roof

Modular stands are designed and manufactured in Poland. We also provide printing services and graphic-related finishing works, thanks to which we deliver a finished product.

## Warranty

Vector and Formulate profiles have a lifetime warranty.

LED lighting have a 1-year warranty.

Off-the-Shelf systems have a 1-year, 5-year or lifetime warranty.

## Customized design

We design stands to meet individual needs as well as make spatial arrangements.

## Helpful materials

We offer templates of briefs which help to sort out necessary information and instruction manuals, also available as video tutorials.

## How to choose a stand?

- Modular stands create an optimal visual effect and layout which allows you to match it to any kind of event.
- Custom-made stands offer a guaranteed ideal match to the exhibitor's specific features.
- Portable stands are a perfect solution for the short-term events offering a possibility to move them around easily and frequently.

**Our range of products will offer you a solution which meets your needs!**

## To design your perfect stand answer the following questions:

Needs analysis will make the choice of a suitable solution much easier.

- What is the size of the area that needs to be arranged?
- How many open sides does the stand have?
- How many people are needed to assemble and disassemble the stand?  
How experienced are they in terms of assembly?
- Is it necessary to conduct a training?
- Will the structure be used multiple times on different surfaces?
- Do you need a storage area?
- Do you need a separated consultation/conversation area?
- Do you need additional accessories such as: counter, leaflet holder, tv set, tablet, shelves, roll-ups, stands?
- Do you need hanging structure?
- What means of transport will be used?
- What is your budget?

You are wondering if you should add some element or not?

Contact us. Our experienced team will help you to find a suitable solution.

# Create a stand from off-the-shelf products

Assemble backwall...

...add literature holder and counter...

or

...choose backwall with a different shape, add a flag and counter to create small stand.

...add another backwall, tension banner, literature holder and counter to create a corner stand...

or

...connect 3 backwalls, add an literature holder, flag and counter to create peninsular stand.

## Stand 8 m<sup>2</sup>

1 x Formulate Horizontal Curved Backwall 3 m

1 x Formulate Oval Counter

FORM-CUR-30

FMC-OVA-01

### Lighting

Fit the spots to your stand for greater illumination (see page 38).

### Formulate Counter

Place to fill in the form or leaving business card in the lottery.  
code: FMC-OVA-01

### Formulate Backwalls

It's not just a space for the main slogan but also the background to the whole event. Size and shape of the wall should be adjusted into space.

### Formulate Tension Banner

Structures with an interesting shape with additional space for the graphic.

code: FORM-SNA

## Formulate

Portable stands

The tubular system easy to assemble and convenient in transport.

Textile graphics can be transported folded in a hardware bag.

Easy to assemble!

## Stand 8 m<sup>2</sup>

1 x Formulate Straight Backwall 2,4 m

1 x Stand Formulate Snake

FORM-STR-24

FORM-SNA

## Hop-up

Portable stands

Lightweight aluminium construction with plastic connectors.

Velcro-type graphics can be folded together with the system.

Simple solutions!

## Stand 18 m<sup>2</sup>

2 x Hop-up Backwall 3x3	HUI3x3
2 x Hop-up Counter	HU301-001-C
3,4 m flag (Quill shape)	UF-ZM-ME
+ Large Square Base	+ UF-ZMLSQ-03
Zed Up Lite A4	AS315-002

### Hop-up Backwall

Foldable, straight wall with textile fabric Velcro-type graphic.

code: HUI3X3

### Hop-up Counter

The necessary materials can be stored on the inner shelf.

code: HU301-001-C

### Zed Up Lite

6 shelves for A4 catalogue  
Includes transport case.  
Also available in formats: A3 and A5.

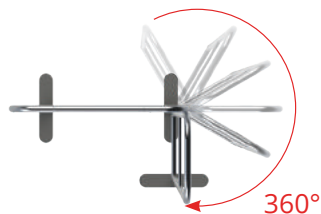

code: AS315-002

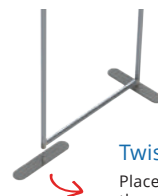

### Lighting

Fit the spots to your stand for greater illumination (see page 38).

### MagLink system

Simply position your frame at your desired angle.

### Twist & Lock

Place the Twist & Lock foot under the structure and rotate to lock it.

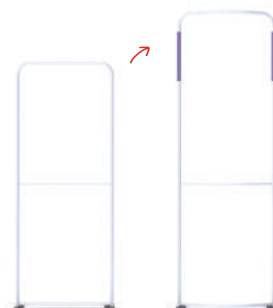

### Literature holders

Ensure easy access to information material.

### Magnetic Formulate Counter

Counters can be combined together to form larger reception. Graphics can cover the table top or be underneath it. The inner shelf is an additional place for the most necessary materials.

code: FORM-MOD-CNTR-01

### 2 height options

Add a 400 mm extension to change the height from 2 m to 2,4 m.

## Modulate™

### Portable stands

Modulate™ consists a set of aluminium tubes frames covered with a printed tension fabric graphic. These frames can be connected together using powerful MagLink magnets inside each element. Assembling the structures does not require any tools. Each frame has also tool-free Twist & Lock feet. It's also possible to add a 400 mm tubular extension which allows to change the height from 2 m to 2,4 m.

## Stand 24 m<sup>2</sup>

2 x Modulate Straight 824	MOD-S-824
4 x Modulate Slope 2	MOD-SS-824-02
2 x Modulate Curved 820	MOD-C-820
3 x Modulate Straight 1820	MOD-S-1820
1 x Modulate Straight 420	MOD-S-420
2 x Magnetic Formulate Counter	FORM-MOD-CNTR-01

# Pegasus

Portable stands

Telescopic backwall ideal for exhibition environments and backdrops for presentations and branding. It is both height and width adjustable, making it flexible enough to fit all kinds of venue.

## Stand 12 m²

1 x Pegasus Backwall	UB165-S
1 x Original + 1000 mm roll up with accessories	UB322-1000C1
1 x Hop-up counter	HU301-001-C

### Accessorise your roll up

Thanks to additional accessories you can change a roll up into interactive tool.

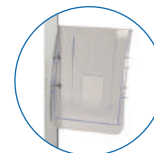

shelf

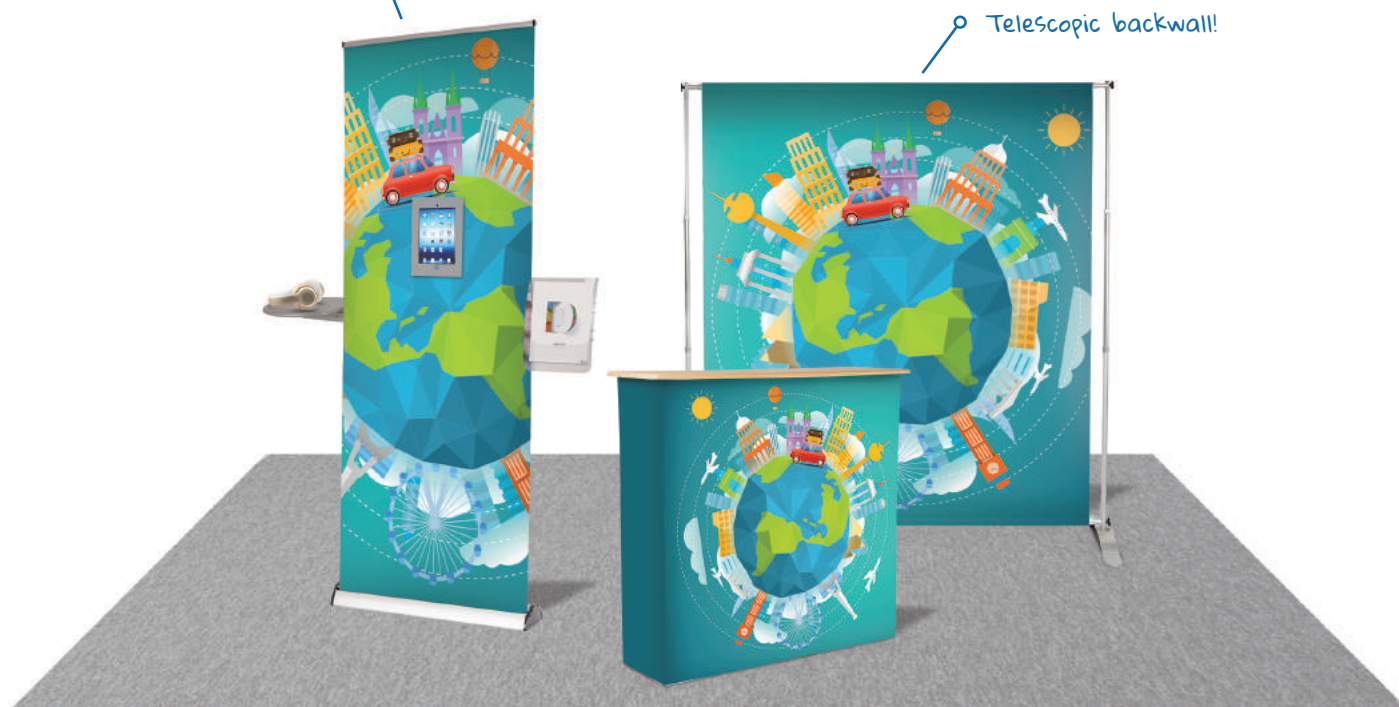

Steel leaflet holder

iPad holder

Acrylic leaflet holder

Telescopic backwall!

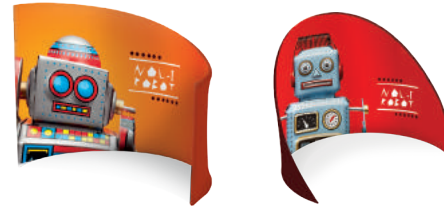

### Hop-up Counter

The necessary materials can be stored on the inner shelf.

code: HU301-001-C

Order meeting pod  
in individual shape!

### Meeting Pod

The easiest way to create a space for conversations with client. Double-sided graphics will allow you to attract attention from the outside and have subdued graphics from the inside.

code: FORM-MPOD-01

### Tension Banner

A forward-facing Formulate stand is an alternative to the traditional double-sided roll up. You can change the graphics by yourself depending on your need.

code: FORM-WAVE

A place to talk!

## Formulate

Portable stands

The tubular system easy to assemble and convenient in transport.

Textile graphics can be transported folded in a hardware bag.

Easy to assemble!

## Stand 12 m<sup>2</sup>

- 1 x Formulate Meeting Pod
- 1 x Formulate Oval Counter
- 1 x Formulate Wave

- FORM-MPOD-01
- FORM-OVA-01

# Modular Vector Stands

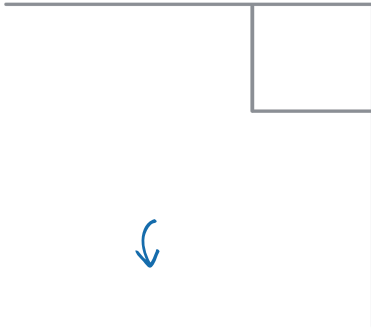

Create corner stand  
made of 3 module...

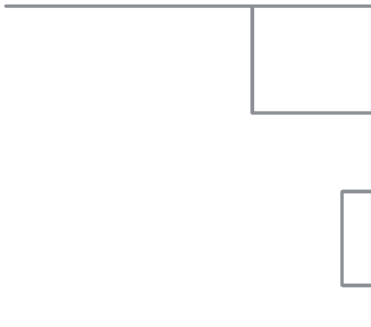

...you can change corner stand into  
peninsular stand any time you need...

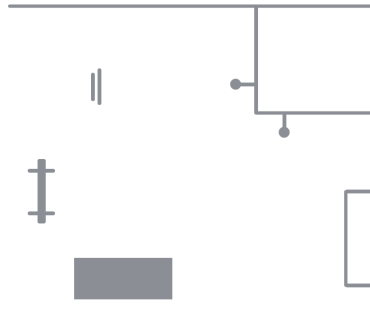

...add Formulate Accents which will  
give the booth a 3D effect.

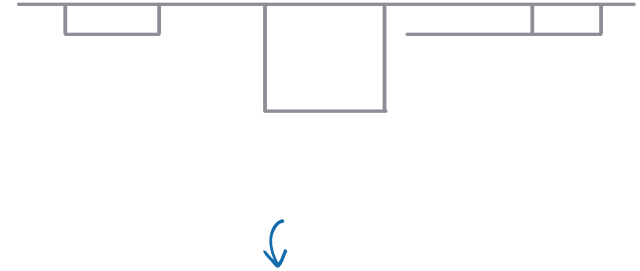

...add Formulate Accents which  
will give the booth a 3D effect.

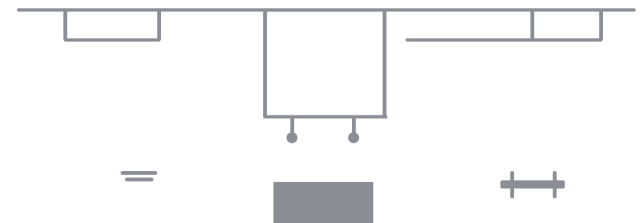

Add lights, literature holders, roll ups  
and counter. You're ready to exhibit!

Use the same elements  
to create different stands!

Add lights, literature holders, roll  
ups and counter. You're ready to  
exhibit!

## Scalable solutions for your needs and budget

From the free-standing image wall to the exhibition stand, Vector Modules offer you versatile designs that can be adapted to any type of event. This gives you the freedom to redevelop your stand as many times as you want, thus guaranteeing an excellent return on investment.

Modules are manufactured with 50, 75 and 125mm aluminium profiles, supplied in sections of 1.25m and delivered in cardboard with assembly instruction.

Made in Poland.  
Lifetime guarantee for Vector profiles.  
One year guarantee for LED systems.

## Mounting a Vector frame

Easy assembly with coded system on each section

Connect the profiles using the locks

Lock with Allen key

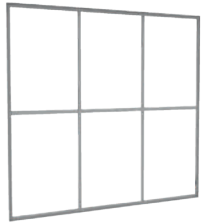

Assemble frames together using a screw

The textile graphics have a silicone edge that makes their installation simple and fast

## Custom-made stands

If you are looking for something more than modular solutions - just unleash your creativity and tell us what you have in mind.

Custom-made designs are what we do best!

We combine Vector profiles and Formulate tubes. Then we add LED frames and hanging structures to obtain the desired effect and make your stand look exceptional.

**We create designs suited to the spatial and communication conditions.** Apart from making the structure itself we can add to it customized counters and stands. We provide non-standard stands along with the graphic elements, which are each time aligned with the manufactured structure. We provide instruction manuals and essential tools.

*Your imagination is the only limitation here!*

## Stand 60 m<sup>2</sup>

Vector Walls  
LED Frames  
LED Vector Hanging Structure  
Formulate Hanging Structure

Optional:

Counters  
Modulate™  
Formulate Custom Structure  
Vector Wall Frames

### Hanging Structure

Irregular hanging structures will attract attention.

### Formulate Structures

Aluminium tubes in combination with textile graphics can create interesting constructions.

# Stand 50 m²

Vector Backwall

Formulate Hanging Structure

Optional:

Counters  
Modulate™ Frames  
Formulate Tension Banner  
Vector Wall Frames  
Shelves  
Screen Support  
Tablet Holder  
Literature Holders  
Lighting

The stand is divided into two spaces. The first one is dedicated to presentation of services and products. The second one is the business over coffee conversation zone. There is no classic suspension. The ribbing structure partly hangs and stands, which gently closes the stand.

## Large Storage

It's a place for personal belongings and promotional goodies

## LED Counter

Custom counter will be a perfect place for necessary materials.

## Shelves

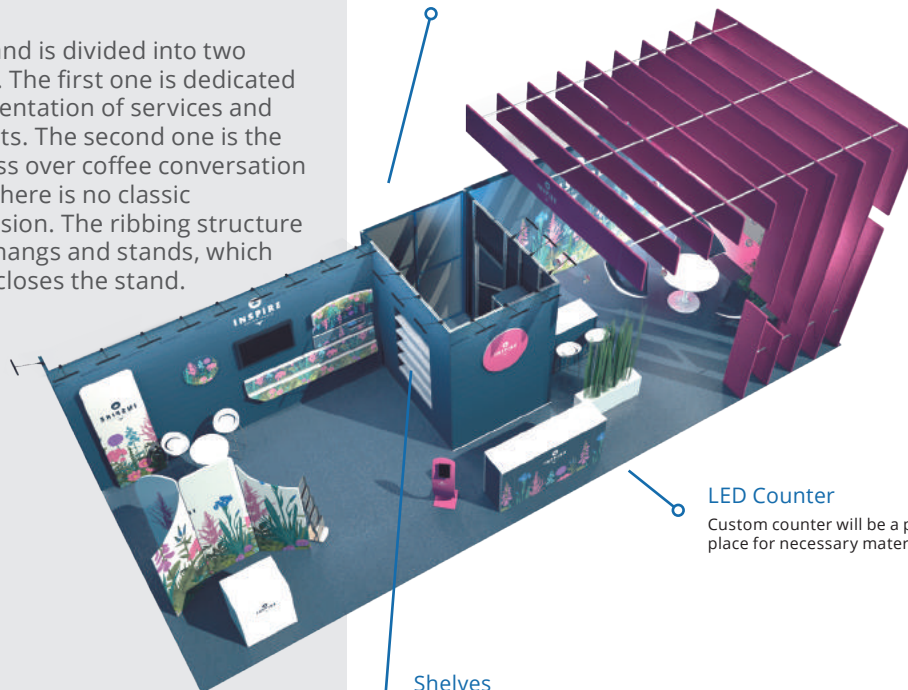

Shelves can be hide inside the wall. Extra side lighting will expose the product.

## Custom Formulate Structure

Made of 50 mm diameter tubes  
Formulate construction gently separates the space.

## Bar

Create a place where you can prepare a hot drinks for visitors.

\*Furniture, TV sets and tablets are not included and are not offered for sale.

### Distinguish the product

Create a special space with Modulate™ frames to promote the most important product during the exhibition.

### Additional wall frames

Create dynamic compositions with wall frames in different sizes.

### LED Frames

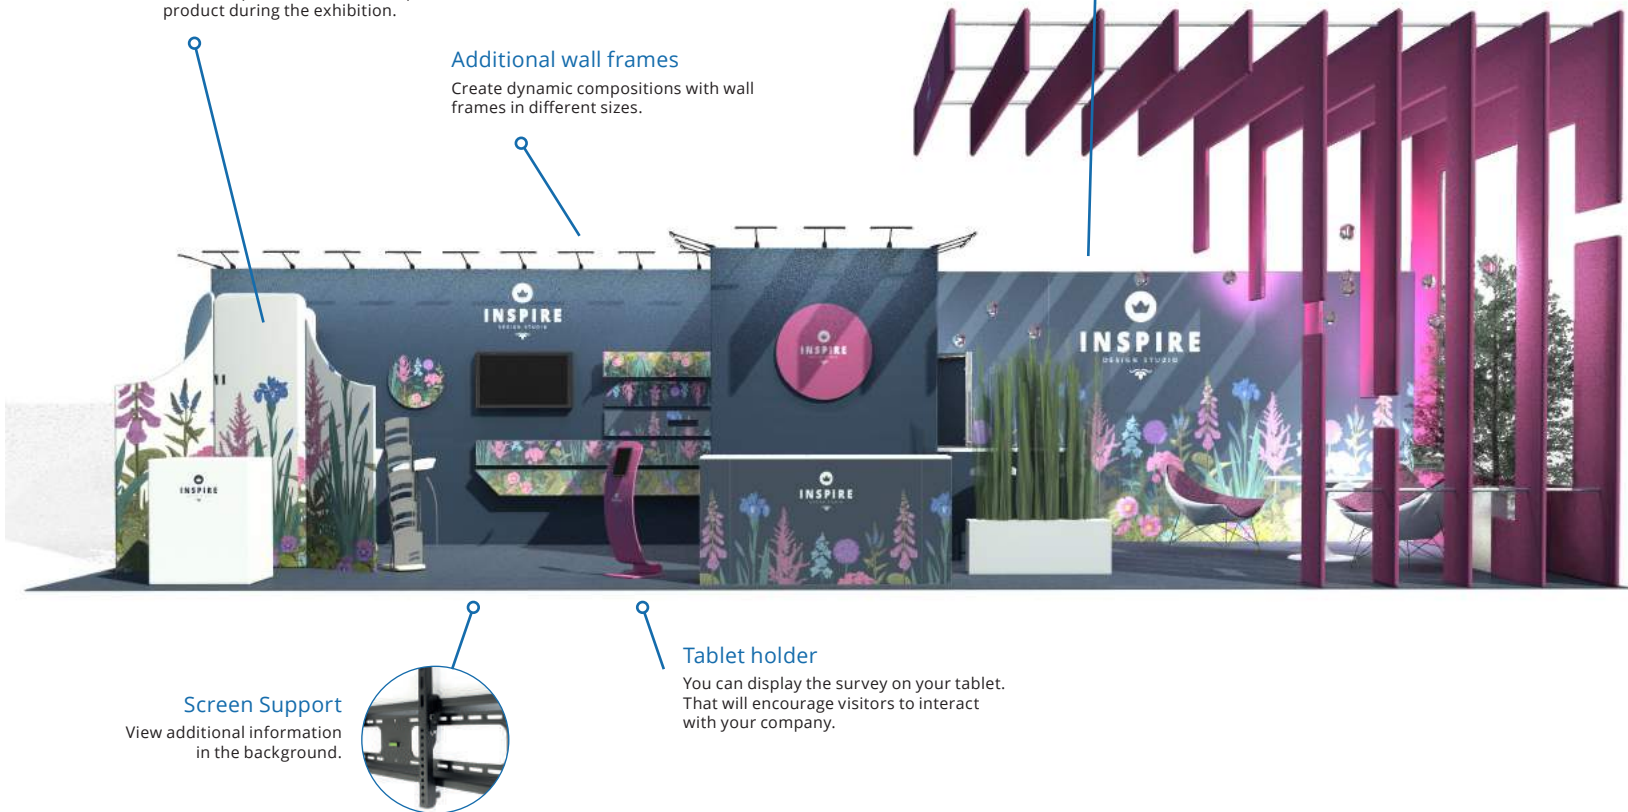

Integrated with the stand LED frame will emphasize the graphics and will highlight the logo and brighten the message!

### Screen Support

View additional information in the background.

### Tablet holder

You can display the survey on your tablet. That will encourage visitors to interact with your company.

## Stand 40 m<sup>2</sup>

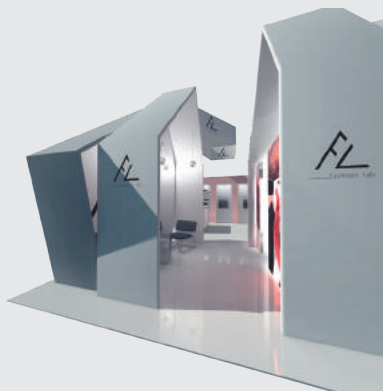

Vector Backwall  
LED Frame  
Formulate Hanging Structure  
Formulate Structure

### Optional:

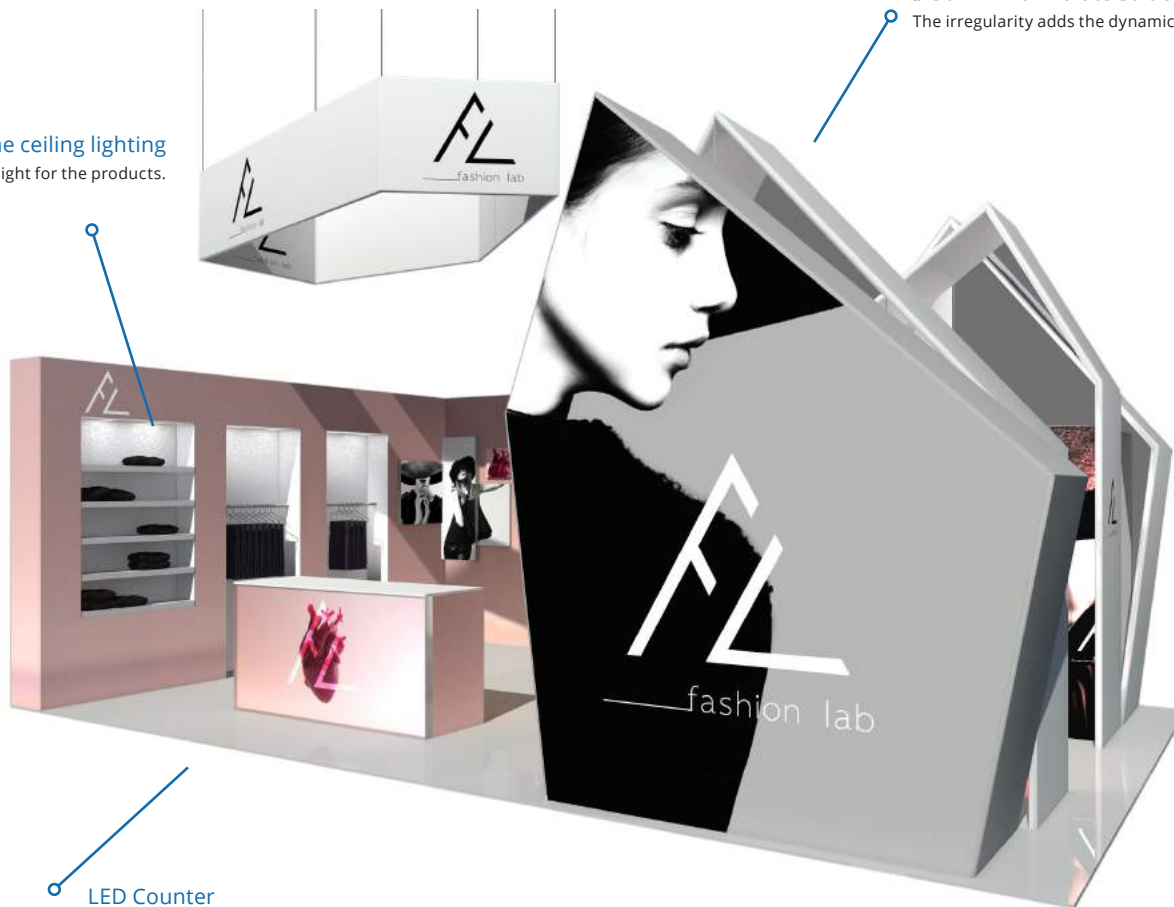

Counters  
Wall frames  
Shelves  
Ceiling lights  
Lighting

Stand with large area for the products presentation. Products can be placed on the shelves and hangers hidden in the walls what will save the space. Storage and the bar are hidden in two Formulate houses with LED frame as a wall. The next two houses created a closed business zone. Stand is crowned with hanging structure made of 30 mm tubes. The shape correspond to the shape of standing Formulate structures.

**The ceiling lighting**  
Extra light for the products.

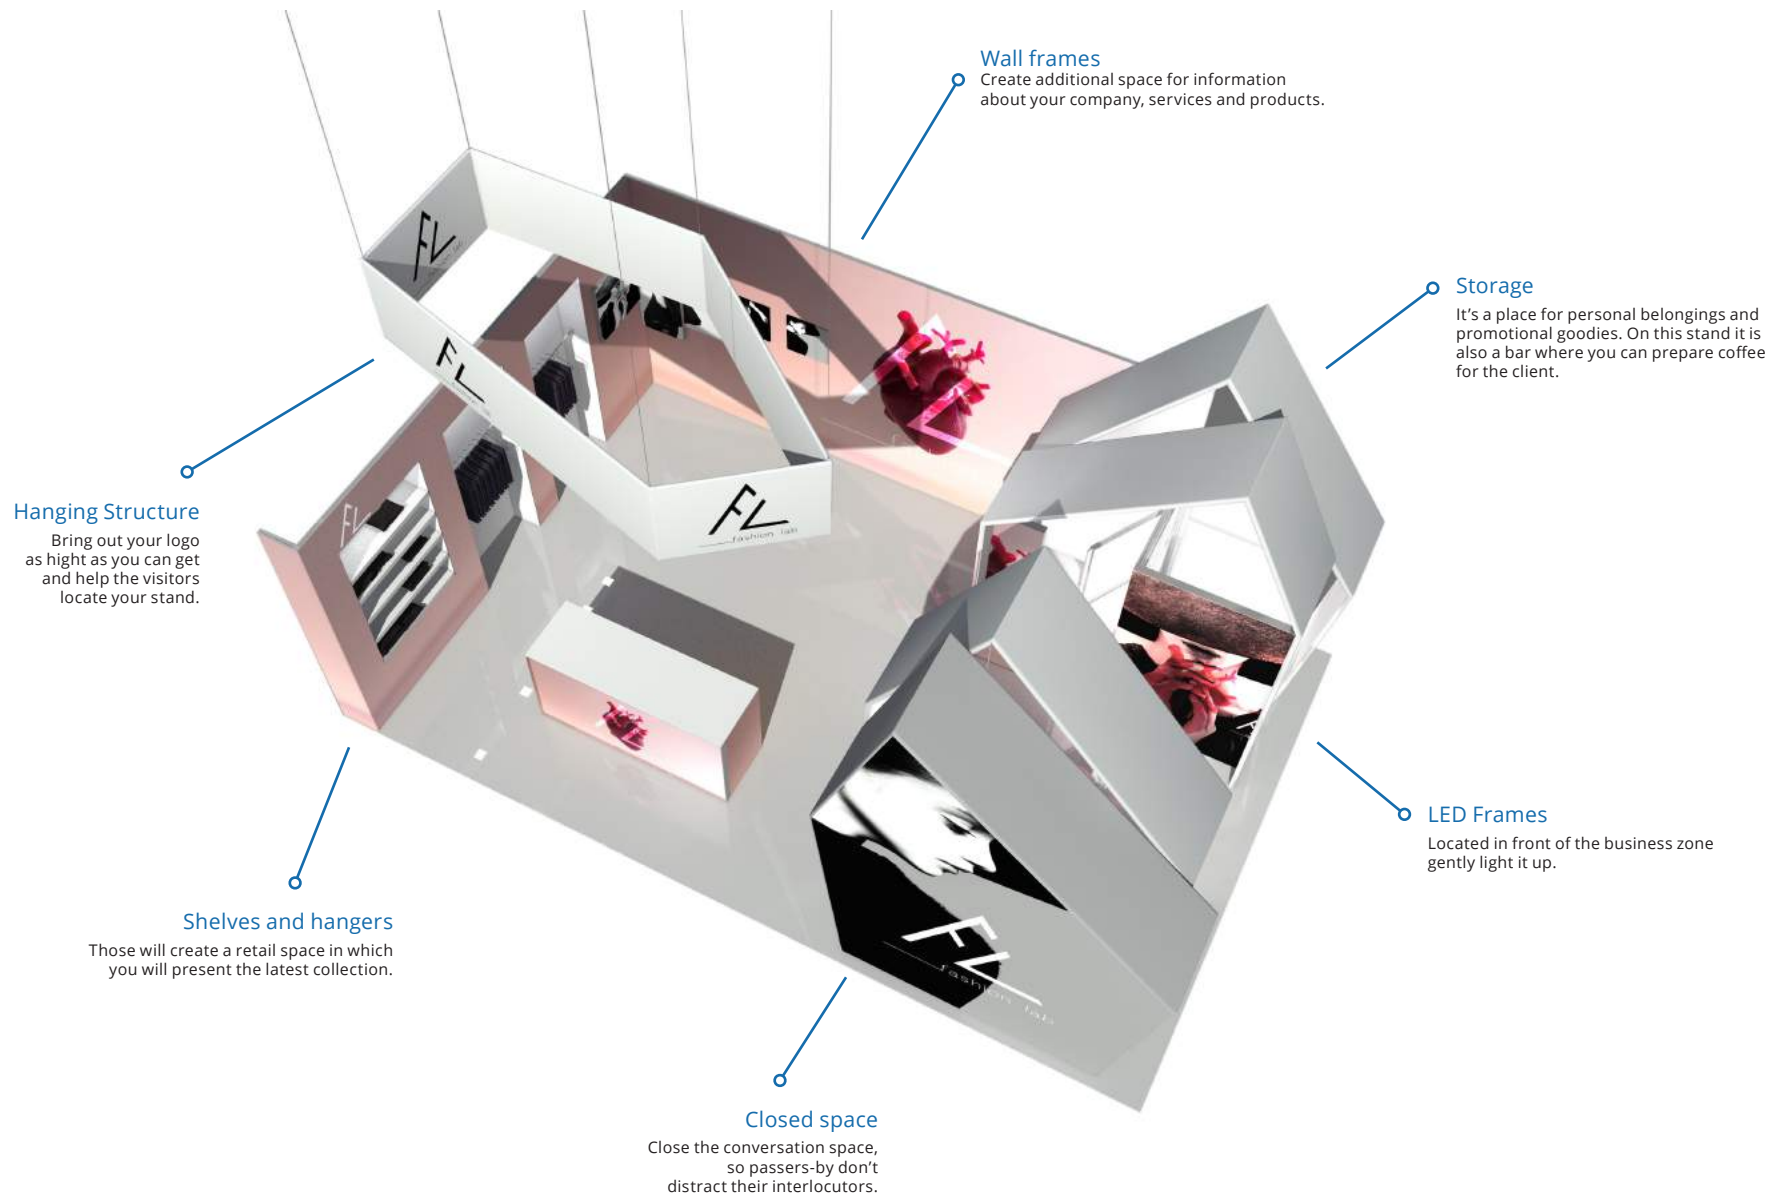

**Ø 50 mm Formulate Structure**  
The irregularity adds the dynamics to the stand.

### LED Counter

The LED frame in the front emphasizes the graphics. Counter manufactured to order will provide extra space for marketing materials.

#### Wall frames

Create additional space for information about your company, services and products.

#### Storage

It's a place for personal belongings and promotional goodies. On this stand it is also a bar where you can prepare coffee for the client.

#### LED Frames

Located in front of the business zone gently light it up.

#### Closed space

Close the conversation space, so passers-by don't distract their interlocutors.

#### Hanging Structure

Bring out your logo as high as you can get and help the visitors locate your stand.

#### Shelves and hangers

Those will create a retail space in which you will present the latest collection.

# Stand 35 m<sup>2</sup>

Vector Backwall  
LED Frame  
Formulate Hanging Structure

Optional:

Counters  
Shelves  
Lighting

A stand with two counters. The large counter at which visitors are greeted and the smaller one to present the main product. Additional shelves and magnetic plate give extra space for product's presentation. Opposite the entrance to the storage there's a hidden place where you can make coffee. Hanging structure adds visibility.

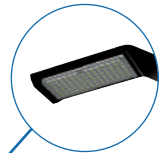

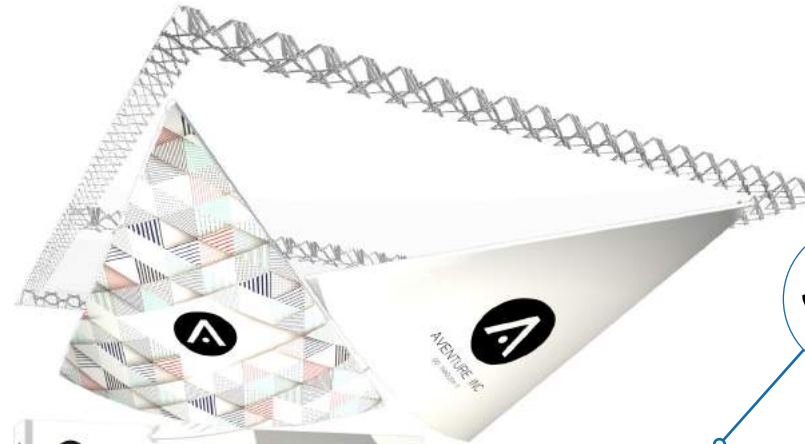

## Shelf and magnetic plate

Convenient and simple way to show your products.

## Large Counter

Provide a place for the most necessary materials and space to welcome visitors.

**Lighting**  
Bright up your graphic (see page 38).

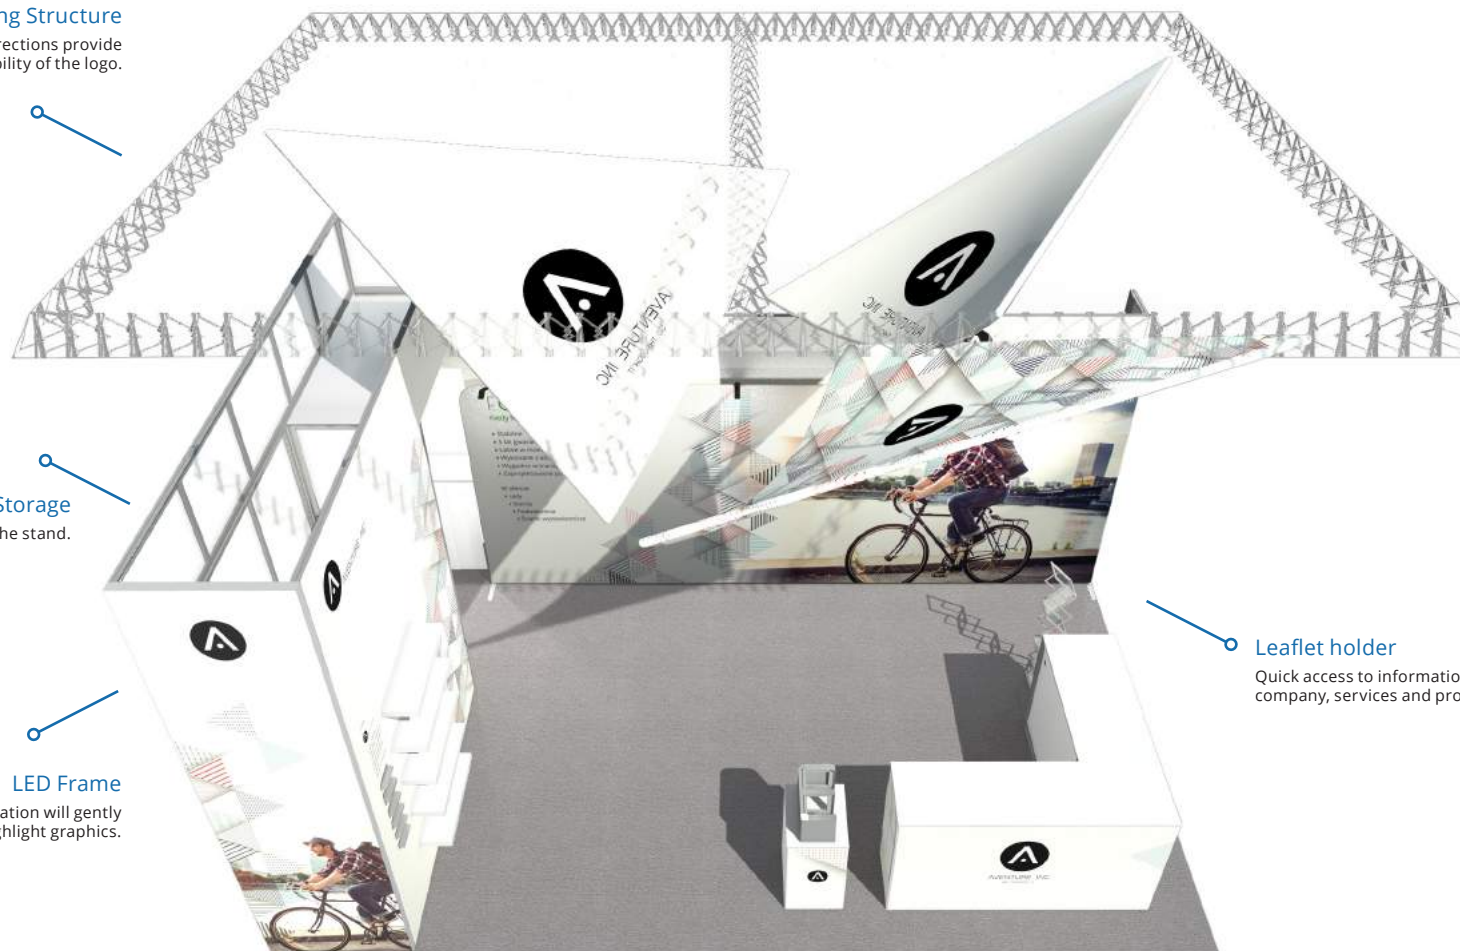

**Ø 30 mm Hanging Structure**  
Sails facing in different directions provide visibility of the logo.

**Storage**  
An essential element of the stand.

**LED Frame**  
LED illumination will gently highlight graphics.

**Leaflet holder**  
Quick access to information about the company, services and products.

**Small Counter**  
Place for № 1 product.

# Stand 36 m<sup>2</sup>

Vector Backwall

Optional:

Counter  
Leaflet holder  
Lighting

A 12 m long stand allows for the separation of space for a meeting place, presentation space and a big storage.

Many arrangements possibilities

## Meeting room

Separate space for business conversations.

## Lighting

Add spots and give more light (see page 38).

## Large corner storage

12 m

3 m

## Steel leaflet holder

Mounted to the profile leaflet holder will be perfect to give quick access to the information.

## Zed Up Lite

6 shelves for A4 catalogues.  
Includes transport case.  
Also available in formats: A3 and A5.

code: AS315-002

## Individual designed counter

The project of the counter has to be well thought. You need to think what would you like to storage inside and how long the reception has to be. You can choose ready to use counter from the offer or create your individual reception.

## Accessories & Additions

---

Accessories and add-ons are equally important as the stand itself.

### Formulate Accents

Add an extra dimension to your stand using tubular structures.

### Hanging Structures

Thanks to being suspended your logo will be visible from each side.

### LED Frames

This effect will draw the attention of the passers-by.

### Accessories

Leaflet holders, screen supporters or shelves will certainly come in handy at every stand.

### Lighting

Lights are not merely an illuminating device - they will draw the visitors' attention to the message you want to highlight.

### Stabilizing feet

For better comfort and safety it is recommended to equip the structure with feet, which will make it more stable.

### Transport

Find out more about how to transport and store the stand.

## Formulate Accents for Vector Walls

The curves of Formulate combined with the Vector range create an original and innovative display solution. A multitude of custom-made configurations is possible, we offer standard shapes and sizes that are simple to incorporate with our Vector modules.

Heksagon 500	FMH-HEX-XL120	1000 (h) x 5000 (w) x 5000 (d) mm

## LED Frames

LED frames will illuminate your graphic. Well integrated in the stand will add delicate light. LED frame can be a part of the stand wall, free-standing or wall-mounted frame and even a hanging structure or counter front.

The 75 mm and 125 mm profiles are designed to accommodate LED edge lighting. Within this framework, the transformer is placed inside, which gives additional security.

LED-RTL-01

LED strip  
LED-RTL-05

## 30 mm profile

The 30 mm profile has a rear modular LED illumination which gives ideal backlit. Due to the narrow profile the transformer is placed outside the frame. Illuminated frame that can be hung up on the booth wall will be a great addition.

# Transport

Wooden crates and bags will not only ensure comfortable and safe transport, but they're also great for storing unused elements.

### Transport Container

Wooden crate on wheels with carrying handle, straps (5 m) and lid.

### Stack up two boxes

Stack crates for the best transport solution for your stand. Up to 2 crates can be stacked on one wheeled case.

300 litre capacity

### Transport bag

Wheeled nylon bag. Interior is reinforced with wooden panles. Zip and handle.

Weight when empty: 4,4 kg.

Dimensions	Code
1370 x 290 x 290 mm	AB-LIN-02

Handle

2580 x 400 x 300 mm	LNPC-2580-N-01	19,5 kg

## Storage

think  
**GREEN**

Well-designed modular stands and custom-made stands are not only a sound investment for the company, they are also environment conscious solutions. Reusing the same elements in different configurations or environments enables the user to reduce costs.

Your stand after the fair is over...

Store your stand in chests, bags, suitcases or cardboard boxes. If you have a limited storage space for storing those elements, inform our designer about it before the designing process of the stand begins. Our designer will divide the elements in such a way so as to fit the allocated space and to be convenient in terms of assembly.

Use the stand elements as a decorative element in your office. LED frame will look great in the lobby and the frames from the stand walls might be placed in the hall. All you need to do is to choose pictures which match the office environment and take them out of the frame for the time of the exhibition fairs, when the frames are taken away.

Display your stand in the showroom. Reduce the elements in such a way so as to fit the stand in the room. Place the products on the shelves, add leaflet stands and graphic elements with info about the company and its services. In this way you will create an area for talks and negotiations with customers and business partners where everything you need will be at hand.

## Printing and finishing

All of our stands are delivered with graphic elements, which are each time aligned with the structure in order to ensure the best visual results.

We advise the graphic elements for the stands to be printed on textile materials as in this way they are easy to transport when folded and there is no risk of creasing. The materials used are very flexible and straighten nicely when stretched across the frame. It is possible to transport such graphic elements to fit the 2,5 x 2 m as well as 3,5 x 6 m wall without worrying about their quality after unfolding!

### Sublimation printing

offers intense colour effect. Pigments do not accumulate on the fabric, thanks to which the print is durable.

**Large 3,1 m wide print!**

### Latex printing

which is used for e.g: printing graphic elements for LED frames guarantees high quality print. Environmentally friendly, harmless technology makes it perfectly safe to place prints in places like hospitals and pre-school facilities.

**Large 3,2 m wide print!**
